Watson is coming. Thrilling reflection! He may be almost here. We refer to Henry, the *Courier Journal* and of 2 a.m. sensations. When the radicals heard it, they crowded together in the remotest bowels of the custom house. When Sheridan heard it he dispatched one of his chief minions by the electric telegraph to head off Watson and take a survey of the field.

"Grantism" as displayed in the present emergency, is a mighty good thing to have. It leads to Shermanism in Louisiana.

What the democrats chiefly dislike about the Louisiana Returning Board is the probability that so far as Mr. Tilden is concerned, it will be also a retiring board.

We hope Louisiana will hurry up with that count, so that all good people will have reason to include the election of Hayes among the things to be thankful for on the 30th.

HAYES carries eighteen Northern States, with 166 electoral votes, while Tilden carries four Northern States, with 65 electoral votes. In the eighteen States carried by Hayes his popular majority is about 287,800, while Tilden's, in the four States which he carries, is 43,800. Thus, in the North, where the brains, the intelligence, the virtue, and the patriotism of the country reside, Hayes has a majority over Tilden of 101 electoral votes and a majority in the popular vote of 194,000. When we come to the South, the land of treason and terrorism, of rebellion and ruffianism, of intimidation and fraud, the proportion is reversed.—*Indianapolis Journal*.

There is no occasion for further anxiety about the Wisconsin Elector who was said to have been left off the ticket by mistake. It is true that the Electoral ticket as at first nominated contained the name of a gentleman who was disqualifed by reason of holding a Federal office, but the fact was discovered in time to correct the error and substitute another name, and this was done, and the Wisconsin Elector vote is solid for Hayes and Wheeler.

The 30th of November having been set apart by both the President of the United States and the Governor of Illinois as Thanksgiving day, there need be no uncertainty in the mind of any citizen, no question of State Sovereignty or Federal interference. Even John M. Palmer can eat turkey under these circumstances. And if by the 30th it should become known who was the next President, then indeed would everybody have something to be thankful for.

GOV. RICE, of Massachusetts, has received in honor of his re-election what the average local reporter timidly calls "a magnificent floral tribute." It is shaped like an exultant rooster, composed of delicate pink and white rose-buds, and it rests upon a mournful bed of violets and heliotropes.

THE Louisville Commercial says that in the ninth congressional district in Kentucky, Turner, democratic candidate, has, on democratic estimates, only 85 majority. It believes that the official vote may elect Boyd, republican, can, making one bright spot among the Kentucky districts.

THE Galveston News reports that in the fifth congressional district, Texas, Jones, the independent candidate, in the ten counties heard from, has a majority of 800. It does not, however, concede the defeat of Giddings, democrat.

THE New York Sun weakens. It admits that the bulldozed parishes in Louisiana may be thrown out and Hayes elected on such a count without complying with the demand and take the south, the unfortunate negro who was taken to the woods and given a "bulldoze" of the cowhide on his naked back. A cool hundred well laid on was considered a bulldoze for once; and the victim either listened to such potent reasoning and took the oath as a member, or fled the country. From a bulldoze soon came the verb to bulldoze.

In the election dispatches from Louisiana the term has been applied to those parishes where the negroes were intimidated from voting. There are five bulldozed, or "bulldozed" parishes.

TILDEN admits that he voted for himself. Being interrogated on the subject, he said:

"When I see all these poor workingmen who are out of employment, and who are anxious for a retrieval of the bad times and return once more of honest men in office, doing all in their power in furtherance of the cause which I represent, and which I have promised to uphold to the fullest extent of my power, I could not very well do otherwise than give them the benefit of my ballot, to which, as a citizen and a resident of this city, I am entitled."

Tilden is a demagogue of the first magnitude. Doubtless he is the first candidate for the office of President who ever voted for himself, and it is quite in keeping with his character that he should attempt to justify the act on the ground of his deep concern for the "poor workingmen."

THE Atlanta Constitution is constrained to remark: "Grant says that no man should be elected president by fraud. This is the right way to look at it."

Martin I. Townsend seems to thrive on tidal waves. In 1874 his majority was 514; this year it is 2,278. Townsend is the man who demolished that old fossil, J. Randolph Tucker, of Virginia. The people remembered it.

## NEW YORK, Nov. 15.—The Herald's special from Tallahassee, says: "It is now considered to be settled that official returns of the county canvassing board will give the state to Drew by more than 900, and to Tilden by more than 500 majority. These majorities will be attacked before the state canvassing board, and the republicans are confident that they can throw out several precincts. The democrats are also confident that they can successfully defend every rato."

A dispatch has been received at republican headquarters, stating that Mr. Cespedes, republican candidate for the legislature in Monroe county, protested against the canvass of the vote of the third precinct in Key West, on the ground that the ballot box was taken away from the polls and counted by the managers, in violation of the law. This precinct is a neighbor of the one in question.

The 30th of November having been set apart by both the President of the United States and the Governor of Illinois as Thanksgiving day, there need be no uncertainty in the mind of any citizen, no question of State Sovereignty or Federal interference. Even John M. Palmer can eat turkey under these circumstances. And if by the 30th it should become known who was the next President, then indeed would everybody have something to be thankful for.

THE republicans are sure that their state ticket is elected by a good majority; but no matter how that may be, there can be no doubt as to the success of the national ticket.
